**Subject:** 2018-6-28 - WAFB - FYI - adeq tina lepage may be on the ST012 call -

FYI – Given concern over contaminant lack of characterization and containment; Remedial Projects Section Manager Tina LePage (my boss's boss) may or may not be joining the 1pm BCT call. (1) ADEQ intent is to reiterate RODA2-intent adherence. (2) USAF agreed to aquifer restoration. (3) Regardless of past thought about mass stability, the plume is anywhere a contaminant exceeds the agreed upon concentration of concern. (4) The RODA2 says 20 years to restore the aquifer. (5) Attenuation must be confirmed. Even if monitoring is from the 20 year transport limits back to the origin to confirm attenuation.
